

A young girl and a young boy are smiling and looking towards the camera. They are wearing red polo shirts and light-colored hats. The girl is on the left, wearing glasses and holding a red watering can. The boy is on the right, also wearing glasses. They are in a lush green garden with many plants and trees in the background.

PROGRAM 2017

# “DISCOVERY SUMMER”

FOR STUDENTS FROM 6 - 17 YEARS OLD

With the theme **“DISCOVERY SUMMER”**, the Summer Program 2017 of the Western Australian International School System would like to offer our students a rewarding summer with fun lessons to help stimulate their creativity. With Sciences, Language and Logic from the Australian education program in collaboration with modern STEAM teaching methods, students will be given projects such as “Robots in life” that will be both fun and intellectually stimulating. The Summer Program 2017 at WASS promises to become a creative playground for all students from 6-17 years old.

## PROGRAM

The Summer Program includes Australian Curriculum subjects such as Maths, Fun Science, Robotics, Computing, Arts (Visual Art, Music, and Dance), Physical Education and Life Skills plus English with ESL classes as well as PSAT and SAT classes.

## STEAM TEACHING METHODS

*Applying the modern teaching methods, STEAM (Science - Technology - Engineering - Art - Maths)*

With this program students will not only develop their language skills, but will also focus on thinking relating to 5 fields: Science, Technology, Engineering, Arts, and Mathematics. Through creative teaching activities and multiple integrated tasks, STEAM stimulates thinking and problem solving skills in many areas in order to help students develop holistically.

## FUN SCIENCE - ROBOTICS - COMPUTING

These three subjects in the fields of science require mathematical thinking: logic and science skills. Through the indoor and extracurricular activities, students will be able to explore the relationship between lessons and practice, and will learn to independently complete tasks.

## ESL – PSAT\* – SAT I\*

ESL\*, PSAT\*, SAT I\* programs will be also taught during the Summer Program, in line with the learning capacity of each student. The ESL English curriculum which is offered to students from grade 1 – 6 is officially licensed by the College Board of the United States (School code 698001). The Western Australian International School System has also introduced the PSAT 8/9 program for qualified students in secondary, with an advanced SAT curriculum\* for students in grade 10, 11, 12.

The English Program is one of the highlights of the 2017 Summer Program at WASS. A team of foreign teachers promises to deliver a great language training program for all the camp students this summer.

### \* ESL

ESL Summer Program 2017 is based on the EAL/D program (English as additional language/dialect). The EAL/D program is designed for students whose first language is a language or dialect other than Standard Australian English (SAE) which is the variety of spoken and written English used formally in Australian schools. The program not only focuses on listening, speaking, reading and writing skills but also helps students understand Australian values and culture.

### \* PSAT

The PSAT (The Preliminary SAT/National Merit Scholarship Qualifying Test - PSAT/NMSQT) program is supported by two organizations:

the College Board and the National Merit Scholarship Corporation (NMSC). This is a standardized exam, in order to provide a top means for students to prepare for the SAT exam. The PSAT also facilitates students seeking access to the NMSC scholarship programs as well as opening the doors to colleges, universities and future careers.

PSAT / NMSQT exams assesses following skills:

- \* Critical reading skills (reading comprehension);
- \* Maths problem-solving skills (solve the problem with mathematics);
- \* Writing skills.

**\* SAT I**

The SAT (Scholastic Assessment Test) is a standardized test from the United States. SAT is managed by the College Board – a non-profit organization. The SAT score is one of the most important entrance factors for most colleges and universities in the United States. It is also can be an important basis for granting scholarships.

The Summer Program 2017 not only focuses on science creativity but also encourages the creativity of the students closer to the Arts and helps to develop soft skills. The potential of students is further maximized through our clubs which include activities such as music, painting, and martial arts. Great creative environments in which to further foster talents. Field trips associated with each study topic will be held on the Fridays of the 2nd, 4th and 6th week of the Summer Program.

**TUITION FEE OF  
SUMMER PROGRAM 2017**

CLASS	TUITION FEE	MEAL	TOTAL
ESL 1	12,600,000	3,300,000	<b>15,900,000</b>
ESL 2	14,490,000	3,300,000	<b>17,790,000</b>
ESL 3	14,490,000	4,000,000	<b>18,490,000</b>
ESL 4	15,750,000	4,000,000	<b>19,750,000</b>
ESL 5	15,750,000	4,000,000	<b>19,750,000</b>
PSAT	18,600,000	4,000,000	<b>22,600,000</b>
SAT	22,500,000	4,000,000	<b>26,500,000</b>

**TIME - SCHEDULE**

Duration: 6 weeks (12 June - 21 July)  
 Schedule: Monday to Friday  
 Morning 8:00 - 11:00 am - Afternoon: 1:30 - 4:00 pm  
 Club: 4:00 - 5:00 pm - Field trip: Friday of week (2 - 4 - 6)
